2020-21 Combined World's Best Workforce (WBWF) Summary and Achievement and Integration (A&I) Progress Report

Response ID:941 Data

1. Report Instructions and Information

Tips when completing the report:
All questions in one section must be answered before the survey will advanceto the next section. You must advance to the end of the form to save your answers. Districts/charters may wish to enter short text as a placeholderto advance in the form and return at a later timeto answer the question.
When asked for results from 2020-21, please provide the relevant data when possible.For each goal, you will have the opportunity to describe how disruptions from COVID-19 have affected data quality.
When you have reached the end of the form, you will be able to submit your completed/in progress summary report and receive a specific link. Each district/charter will have their own unique link to access their answers at a later time. Via that specific link, you can update/edit your responses until December 15, 2021.
Save your specific survey link for easy access to your district/charter's summary report.
Contact our WBWF Specialist at mde.worldsbestworkforce@state.mn.us if you need a copy of your specific survey link.

Annual Report

MDE understands this past school year (2020-2021) ended under unique circumstances due to the COVID-19 pandemic. Therefore, we are providing reporting options that reflect this disruption in your ability to appropriately report annual progress.

WBWF Requirement: For each school year, the school board must publish a report in the local newspaper, by mail or by electronic means on the district website.

A&I Requirement: Districts must post a copy of their A&I plan, a preliminary analysis on goal progress, and related data on student achievement on their website 30 days prior to the annual public meeting.

5. **Provide the link to the district's WBWF annual report and A&I materials.**

Provide the direct website link to the district's WBWF annual report. If a link is not available, describe how the district disseminates the report to stakeholders.

https://arcadiacharterschool.org/reports-and-assessments

Provide the direct website link to the A&I materials.

Annual Public Meeting

These annual public meetings were to be held in the fall of each school year. Report on this measure for the 2020-2021 school year.

WBWF Requirement: School boards are to hold an annual public meeting to communicate plans for the upcoming school year based on a review of goals, outcomes and strategies from the previous year. Stakeholders should be meaningfully involved, and this meeting is to occur separately from a regularly scheduled school board meeting.

A&I Requirement: The public meeting for A&I is to be held at the same time as the WBWF annual public meeting.

6. **Provide the date of the school board annual public meeting to review progress on the WBWF plan and Achievement and Integration plan for the 2020-21 school year.**

08/18/2020

3. World's Best Workforce

District Advisory Committee

The District Advisory Committee should be in place at the start of the school year. Report on your membership list.

WBWF Requirement: The district advisory committee must reflect the diversity of the district and its school sites. It must include teachers, parents, support staff, students, and other community residents. Parents and other community residents are to comprise at least two-thirds of advisory committee members, when possible. The district advisory committee makes recommendations to the school board.

7. District Advisory Committee Members

Complete the list of your district advisory committee members for the 2020-21 school year. Ensure roles are clear (teachers, parents, support staff, students, and other community residents).

Equitable Access to Effective and Diverse Teachers

Staffing should be in place by the start of the 2020-21 school year. Report on your equitable access to excellent and diverse educators for the start of the 2020-21 school year.

WBWF Requirement: WBWF requires districts and charters to have a process in place to ensure students from low income families, students of color, and American Indian students are not taught at disproportionate rates by inexperienced, out-of-field, and ineffective teachers. The legislation also requires that districts have strategies to increase access to teachers who reflect the racial and ethnic diversity of students.

While districts/charters may have their own local definitions, please note the definitions developed by Minnesota stakeholders during the Every Student Succeeds Act (ESSA) state plan development process:
An **ineffective teacher** is defined as a teacher who is not meeting professional teaching standards as defined in local teacher development and evaluation (TDE) systems.
An **inexperienced teacher** is defined as a licensed teacher who has taught for three or fewer years.

An **out-of-field teacher** is defined as a licensed teacher who is providing instruction in an area which he or she is not licensed.

The term "equitable access gap" refers to the difference between the rate(s) at which students from low income families, students of color, and American Indian students are taught by inexperienced, out-of-field, or ineffective teachers and the rate at which other students are taught by the same teacher types. This is not to be confused with the "achievement gap" (how groups of students perform academically); rather, "equitable access gap" is about which student groups have privileged or limited access to experienced, in-field, and effective teachers.

Districts/charters are encouraged to monitor the distribution of teachers and identify equitable access gaps between and within schools, but they may also make comparisons to the state averages or to similar schools. It is important to note that some of the most significant equitable access gaps occur at the school and classroom level.

Districts/charters may also use other indicators of "effectiveness" such as teachers receiving stronger evaluations overall, teachers with strengths in particular dimensions of practice (e.g., culturally responsive practices), teachers certified by the National Board for Professional Teaching Standards, or teachers with demonstrated student growth and achievement results.

8. Describe your process for ensuring students of color, American Indian students and students from low income families have equitable access to experienced, in-field, and effective teachers.

How did the district examine equitable access data? What data did you look at? How frequently do you review the data? Who was included in conversations to review equitable access data?
(200 word limit)

All students work with all teachers at Arcadia, due to the size of the school.

What strategies has the district initiated to improve student equitable access to experienced, in-field, and effective teachers? **What goal(s) do you have to reduce and eventually eliminate equitable access gaps?**
(200 word limit)

All students have equitable access.

WBWF Requirement: WBWF requires districts and charters to examine student access to licensed teachers who reflect the racial and ethnic diversity of students. A growing body of research has demonstrated that all students benefit when they are taught by racially and ethnically diverse staff throughout their career, and students of color and indigenous students benefit even more. Consequently, working to increase teacher racial diversity is beneficial to all schools.

9. Describe your efforts to increase the racial and ethnic diversity of teachers in your district.

Which racial and ethnic student groups are present in your district that are not yet represented in your licensed teacher staff? How many additional teachers of color and American Indian teachers would you need in order to reflect your student population?

(200 word limit)

One of the challenges Arcadia faces is limited racial and ethnic diversity in the student body. Our efforts to increase the racial and ethnic diversity of our student body and our teaching staff are linked. Northfield has a Hispanic/Latino(a) population that we are trying to reach. Though we are a very small school, we have prioritized offering Spanish classes, including to heritage Spanish speakers (two students in 2020-2021). We are working on having materials available in English and Spanish—an important effort. Essentially, we are trying to find ways to connect with racially and ethnically diverse families in the community, which would help us recruit both students and future educators. Currently, fewer than 8% of our students are Hispanic/Latino(a), and that is the largest racial or ethnic student group lacking representation. Right now, all but one of the licensed teaching staff members are white. To reflect our student body, we would have at least one Hispanic/Latino(a) staff member, and ideally, we would have a greater number of teachers of color in general.

What strategies has the district initiated to increase and retain teachers of color and American Indian teachers in the district? What goal(s) are you pursuing?

(200 word limit)

We are working to develop relationships with people in the community and with institutions that prepare future teachers to try to find people of color who are interested in working in the field of education, and might be interested in working at Arcadia in the future. We strive to be an inclusive community, and we generally succeed, but the majority of people involved in the institution are white--we need to do better than one teacher of color, though that might be proportionate to our student population, if we wanted to retain teachers of color.

Local Reporting of Teacher Equitable Access to Effective and Diverse Teachers Data

Districts are required to publicly report data on an annual basis related to student equitable access to teachers, including data on access for low-income students, students of color, and American Indian students to experienced, in-field, and effective teachers and data on all student access to racially and ethnically diverse teachers.

10. For this 2020-21 WBWF summary report submission, please check the boxes to confirm that your district publicly reported this data.

District/charter publicly reports data on an annual basis related to equitable teacher distribution, including data on access for low-income students, students of color, and American Indian students to effective, experienced, and in-field teachers.

13. Close the Achievement Gap(s) Between Student Groups

Goal

Provide the established SMART goal for the 2020-21 school year.

By the conclusion of FY22, for each reading and math, the Academic Achievement Rate for the Special Education Subgroup will be: [One-third of (100 - 2016 Special Education subgroup proficiency index)] + 2016 Special Education Subgroup Achievement Rate Goal Rationale: 2016 Math Special Education Achievement Rate = 24.14 2016 Reading Special Education Achievement Rate = 48.28 Math 1/3 (100 - 24.14) + 24.14 = 49.43 Reading 1/3 (100 - 48.28) + 48.28 = 65.52

If the pandemic did not affect the quality of the data used to measure progress, please type "N/A" as your answer.

It is unclear if we are on track or not on track. The data that we would typically use to determine whether or not we met this goal is not available in the Academic Roster due to the pandemic. Additionally, we were in hybrid learning when the MCAs took place, and the majority of students opted out of the test. Only 41.9% of eligible students took the test (26 out of 62 eligible), and only 7 of those 26 students qualified for special education services.

Narrative

What data have you used to identify needs for all students in this goal area? How is this data disaggregated by student groups and inclusive of all students?

(Narrative is required. 200 word limit)

We would typically use data from the Academic Roster to determine our progress toward this goal, looking specifically at the special education subgroup. This data was not available this year.

We have purchased a new math curriculum for special education. Teachers are receiving instruction to use it as effectively as possible with special education students. We also have special education teachers co-teaching with general education math teachers to support students who are able to participate in general education math with some additional support.

15. All Students Career- and College-Ready by Graduation

Goal

Provide the established SMART goal for the 2020-21 school year.

Every year from 2017-2022, each student graduating from Arcadia will complete a proscribed Senior Project. Each student writes their own project-related smart goals with their project advisor. Each approved senior project includes a research paper with full references and a minimum of 15 pages, and a presentation of the project to the Arcadia community.

Result

Provide the result for the 2020-21 school year that directly ties back to the established goal.

100% of students who graduated from Arcadia completed this requirement in 2017-2021.

(Narrative is required. 200 word limit)

We believe strongly in preparing our graduates for the future with critical thinking and communication skills. Project-based learning readily lends itself to career and college readiness, and the senior project demands that students demonstrate the skills they have developed over the course of their time at Arcadia. Seniors set SMART goals, ask
and answer essential questions they determine in conjunction with their advisors, create a plan to manage their time, and then meet regularly with their advisors for guidance on the project and for feedback on their writing. Projects are measured against a rubric that includes content, time management, presentation and oral communication, writing and resources, and a student-created section directly relevant to the student's project. The teachers worked together to develop the rubric and continue to adjust it over time. Feedback from graduates indicates that this process effectively prepares them for college and career situations.

The personal attention each student receives from their advisors in completing their senior year ensures that all students stay on track throughout the year and graduate. This strategy appears to be very effective, since we have consistently achieved a 100% graduation rate. However, distance learning and social isolation due to the pandemic had an impact on students' academic progress and mental health, even with regular contact and individualized feedback from advisors.

4. Achievement & Integration

Once they are approved by MDE, Achievement and Integration (A&I) plans are in effect for three years. At the end of the third year, the commissioner must determine if districts met each goal in their approved plans (Minn. Stat. § 124D.862, subd. 8).

In order to do this, each district is asked to provide information in this A&I progress report indicating whether or not each of their plan goals has been met. The information you submit will also be used to provide ongoing support for your A&I efforts.

Districts with one or more racially identifiable schools will also submit progress reports to verify whether 2020-21 A&I plan goals for each of those schools were on track.

Districts that don't meet plan goals after three years are to consult with the commissioner on improvement plans and use up to 20% of their annual A&I revenue to fund improvement strategies—strategies that will make it more likely for a district to meet their new A&I goals (Minn. Stat. § 124D.862, subd. 8).

This section is only required for districts with an approved Achievement and Integration plan during the 2020-21 school year. If your district does not have an MDE approved Achievement and Integration plan, click on the Back button at the bottom to return to question #4 and

ensure you indicated your district does not have an MDE-approved A&I Plan for the 2020-21 school year.

(Narrative is required. 200-word limit.)

5. Achievement & Integration

Once they are approved by MDE, Achievement and Integration (A&I) plans are in effect for three years. At the end of the third year, the commissioner must determine if districts met each goal in their approved plans (Minn. Stat. § 124D.862, subd. 8).

In order to do this, each district is asked to provide information in this A&I progress report indicating whether or not each of their plan goals has been met. The information you submit will also be used to provide ongoing support for your A&I efforts.

Districts with one or more racially identifiable schools will also submit progress reports to verify whether 2020-21 A&I plan goals for each of those schools were on track.

Districts that don't meet plan goals after three years are to consult with the commissioner on improvement plans and use up to 20% of their annual A&I revenue to fund improvement strategies—strategies that will make it more likely for a district to meet their new A&I goals (Minn. Stat. § 124D.862, subd. 8).

This section is only required for districts with an approved Achievement and Integration plan during the 2020-21 school year. If your district does not have an MDE approved Achievement and Integration plan, click on the Back button at the bottom to return to question #4 and ensure you indicated your district does not have an MDE-approved A&I Plan for the 2020-21 school year.
